1. Qualitative Information and Financial Statements

(1) Analysis of business results

a. Results for fiscal 2016

During the fiscal year ended March 31, 2016, the Japanese economy remained on a moderate recovery trend as indicated by signs of improvement in the employment environment and personal incomes. However, the outlook of the Japanese economy continued to be unclear because of fluctuations of resource prices and foreign currency exchange rates and the slowdown of emerging economies.

The pachinko and pachislot industry is implementing across-the-board initiatives to halt the decline in the player population. The manufacturers are promoting development of diverse easy-to-play machines under the voluntary regulations to discourage players from becoming overly immersed in playing.

In these circumstances, the SANKYO Group swiftly responded to the new standards and proactively launched models with diverse specifications and gaming performance, including not only tie-up titles that capitalize on the worlds conjured up by well-known licensed content but also drum-type and airplane-type models that are not dependent on licensed content. The Group also continued to sell reuse products.

However, affected by fierce competition to secure sales of models compliant with the former standards before the transition to the new standards, and owing to a decrease in demand after the transition to the new standards, sales were sluggish and lower than the figure for the previous year.

As a result, on a consolidated basis, net sales were ¥137.1 billion, a decrease of 6.4% year on year. On the other hand, operating income increased 42.3% to ¥18.8 billion and recurring income increased 34.3% to ¥19.9 billion because of an improvement of the cost of sales ratio resulting from a change in the sales mix and an increase in unit sales prices and because of lower research and development expenses and advertising expenses. Profit attributable to owners of parent amounted to ¥10.4 billion, an increase of 20.1%, owing to recording of impairment loss on fixed assets amounting to ¥3.2 billion. For details, please refer to the "Notice of Discrepancy between the Forecast and Results for the Fiscal Year Ended March 31, 2016" disclosed today separately.

Results of segments are presented below:

Pachinko Machines Business

Regarding the pachinko machines business, sales amounted to ¥98.2 billion, a decrease of 13.9% compared with the same period of the previous year, and operating income amounted to ¥19.0 billion, a increase of 23.1%. Sales of pachinko machines amounted to 296,000 units. Major titles released included *Fever Space Battleship Yamato* (introduced in May 2015), *Fever Macross Frontier 2* (introduced in August 2015) and *Fever Mobile Suit Gundam LAST SHOOTING* (introduced in March 2016) under the SANKYO brand, *EVANGELION X* (introduced in September 2015) under the Bisty brand, and *PASSION MONSTER* (introduced in June 2015) and *Great the King* (introduced in January 2016) under the JB brand.

Pachislot Machines Business

With regard to the pachislot machines business, sales amounted to ¥26.0 billion, a increase of 36.5% year on year, and operating income was ¥4.8 billion, a increase of 85.9%. Sales of pachislot machines amounted to 80,000 units. Major titles released included Pachislot Macross Frontier 2 Bonus Live Ver. (introduced in September 2015) under the SANKYO brand, and EVANGELION -Spear of Hope (introduced in June 2015), EVANGELION -Tamashii wo Tsunagumono (introduced in December 2015) and Pachislot Mobile Suit Gundam Awaking -Chained Battle- (introduced in January 2016) under the Bisty brand.

Ball Bearing Supply Systems Business

Sales of the ball bearing supply systems business were ¥12.1 billion, a decrease of 3.1% year on year, and operating income was ¥0.3 billion, an decrease of 17.2%.

Other Businesses

Sales of other businesses were ¥600 million, a decrease of 17.4% year on year. An operating loss of ¥700 million was recorded compared with operating loss of ¥500 million for the previous year.

b. Forecast for fiscal 2017

With regard to the market environment for fiscal 2017 (fiscal year ending March 31, 2017), the standards for both pachinko and pachislot machines will change greatly because of the voluntary regulations. The SANKYO Group views the change in the regulations as a business opportunity and is pursuing expansion of the Group's market share in the two mainstay businesses by developing and launching models compliant with the new standards ahead of competitors. On the other hand, evaluation of the models compliant with the new standards is still unknown and pachinko parlor operators are adopting a cautious attitude toward purchases. Therefore, management projects that the pachinko and pachislot machine markets will be more challenging in fiscal 2017 than in fiscal 2016.

The Group's plan calls for sales volumes for the fiscal year ending March 31, 2017, of 297,000 pachinko machines and 80,000 pachislot machines.

The consolidated business results forecast for the fiscal year ending March 31, 2017, are as follows:

	Forecast		Year-on-year change		FY 2016	results	
Net sales	¥135.0 bi	llion	1.6%	decrease	¥137.1	billion

(2) Analysis of financial position

a. Analysis of assets, liabilities, net assets, and cash flows

Total assets at the end of the fiscal year ended March 31, 2016 amounted to ¥414.1 billion, having decreased ¥20.4 billion compared with the figure at the previous fiscal year-end. This decrease was mainly attributable to a ¥36.7 billion decrease in cash and deposits, a ¥11.2 billion decrease in notes and accounts receivable-trade, a ¥7.9 billion decrease in investment securities, and a ¥2.9 billion decrease in tangible fixed assets, despite a ¥43.0 billion increase in marketable securities.

Total liabilities amounted to ¥65.2 billion, having increased ¥2.2 billion compared with the figure at the previous fiscal year-end. This increase was mainly attributable to a ¥20.0 billion increase in bonds with subscription rights to shares despite a ¥17.5 billion decrease in notes and accounts payable-trade.

Net assets decreased ¥22.7 billion compared with the figure at the previous fiscal year-end. This decrease was attributable to purchase of treasury stock amounting to ¥20.0 billion and cash dividends paid amounting to ¥12.5 billion, whereas profit attributable to owners of parent amounting to ¥10.4 billion was recorded. As a result, net assets amounted to ¥348.9 billion and the shareholders' equity ratio decreased 1.4 percentage points to 84.1%.

Cash and cash equivalents (hereinafter "cash") at the fiscal year-end were ¥234.9 billion, having increased ¥16.2 billion from the previous fiscal year-end.

Net cash provided by operating activities decreased ¥8.0 billion from the previous fiscal year to ¥17.3 billion. Principal cash inflow items were income before income taxes amounting to ¥16.5 billion, a ¥11.2 billion decrease in notes and accounts receivable-trade, depreciation and amortization amounting to ¥4.9 billion, and impairment loss amounting to ¥3.2 billion. Principal cash outflow items were a ¥17.5 billion decrease in notes and accounts payable-trade and income taxes paid amounting to ¥5.2 billion.

Net cash provided by investing activities increased ¥6.2 billion from the previous fiscal year to ¥11.3 billion. The principal cash inflow item was proceeds from redemption of investment securities amounting to ¥40.0 billion. Principal cash outflow items were payment for purchase of investment securities amounting to ¥24.0 billion and payment for purchase of property, plant and equipment and intangible fixed assets amounting to ¥4.7 billion.

Net cash used in financing activities decreased ¥38.3 billion from the previous fiscal year to ¥12.4 billion. Principal cash outflow items were payment for purchase of treasury stock amounting to ¥20.0 billion and cash dividends paid amounting to ¥12.5 billion. The principal cash inflow item was proceeds from issuance of bonds with subscription rights to shares amounting to ¥20.1 billion.

For fiscal 2017, the Company forecasts net cash provided by operating activities of ¥20.0 billion, net cash used in investing activities of ¥5.0 billion attributable to capital investment, and net cash used in financing activities of ¥12.0 billion attributable to payment of cash dividends.

As a result, the Company forecasts an increase of ¥3.0 billion in the cash balance at the end of fiscal 2017 compared to the end of fiscal 2016.

(3) Basic policy on profit sharing and cash dividends for fiscal 2015 and fiscal 2016

The Company regards the return of profits to shareholders as one of the most important management priorities. The Company's dividend policy is to maintain a payout ratio of 25% of consolidated net income and the aim is to continuously increase dividends. In line with the above basic policy and from the viewpoint of stable dividend payment, the Company plans to pay a dividend of ¥150 per share (including a ¥75 interim dividend) for both fiscal 2016 and for fiscal 2017. This will result in a consolidated payout ratio of 118.3% for fiscal 2016 and 109.5% for fiscal 2017.

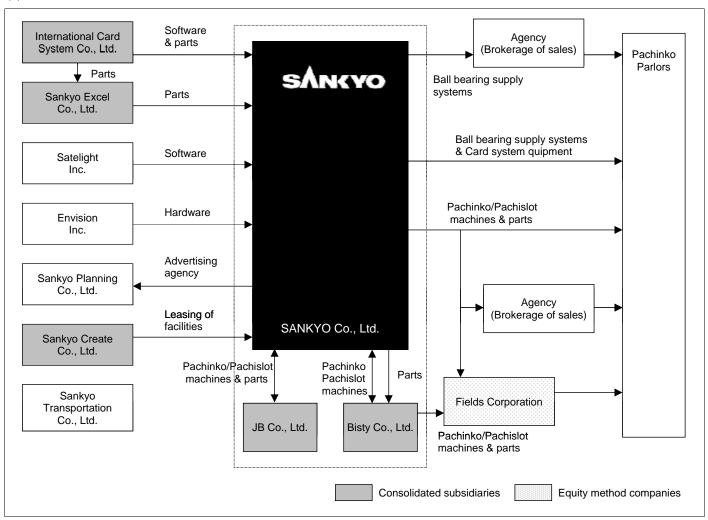

The Company will effectively utilize retained earnings for product development, capital investment, and sales & marketing to improve business performance. Repurchasing of own shares will be decided from the viewpoint of enhancing capital efficiency.

3. Management Policies

(1) Fundamental management policy

The basic philosophy of SANKYO Co., Ltd. (the Company) and its consolidated subsidiaries and affiliates (SANKYO Group) is to fulfill its mission, namely, to contribute to the sound development of pachinko and pachislot, which are popular leisure activities in Japan, and to the quality of life in society as a leading company in the pachinko and pachislot industry.

SANKYO Group's stakeholders include shareholders, pachinko parlors, which are the Group's customers, pachinko players, suppliers, local communities, and employees. One of the most important management tasks is to maintain good relations with each of these stakeholders, and accordingly, the Group has set the following fundamental management policies:

- a. Maximize stakeholder value and achieve the optimum distribution of that value
- b. Ensure compliance with laws and regulations, social norms, and corporate ethics
- c. Enhance efficiency and transparency of management
- d. Inspire employees and develop their capabilities
- e. Enhance society's trust in the pachinko and pachislot industry

(2) Performance indicators

SANKYO Group aims to achieve sustainable growth by establishing a solid position in the industry through increasing its share of the pachinko and pachislot markets. The Company believes that the results of this effort are reflected in the ratio of operating income to net sales and formulates and implements various measures to increase competitive advantage in product planning, development, production, and marketing with the objective of increasing this ratio. The Group will continuously engage in cost reduction measures, including improvement of the efficiency of advertising and sales promotion, the sharing of parts and materials, and the streamlining of logistics.

The table below depicts change in the ratio of operating income to net sales for the most recent three-year period.

	FY2014	FY2015	FY2016
Ratio of operating income to net sales (%)	17.7	9.0	13.7

(3) Medium-to-long-term management strategy

In order to maintain growth and increase profitability, SANKYO Group will concentrate its resources on the game machines business, endeavoring to offer highly competitive innovative products that vitalize the pachinko and pachislot industry while aiming to secure a competitive advantage as a manufacturer that continues to lead the market.

(4) Management issues

The SANKYO Group will address the following two principal management issues:

a. Initiatives to revamp pachinko and pachislot player population

An issue confronting the entire pachinko and pachislot industry is the need to develop diverse pachinko and pachislot machines conducive to players' enjoyment and relaxation and to popularize such machines. The Pachinko & Pachislo Award 2015 held by Nichiyukyo selected the Group's *Fever Queen* and *EVANGELION 8 Premium Battle* Y as the first- and the second-placed titles in the Yupachi Type Category (pachinko machines for light players) for the Pachinko Award. This indicates that the SANKYO Group has successfully gained high endorsement from pachinko parlor operators and players for its offerings in the category of pachinko machines that can be played with a relatively low budget. Moreover, the Group participated in international exhibitions for anime fans to promote the Group's pachinko and pachislot titles to them, including AnimeJapan 2016 held in March in Tokyo where numerous well-known anime-related companies and organizations from Japan and abroad exhibited and C3 in Hong Kong 2016 held in February, which is an event for introducing Japanese characters, culture and content to fans in Hong Kong and from elsewhere in Asia. The Group will continue efforts to develop pachinko and pachislot products capable of appealing to a wide range of people and help revamp the player population.

b. Initiatives to strengthen earnings power

As part of measures to strengthen the Group's earnings power over the medium term, the Group is striving to expand its shares of the pachinko and pachislot markets, increase sales, reduce costs and curtail selling, general and administrative expenses to boost the ratio of operating income to net sales.

Regarding sales capabilities, which is a key for increasing market share, as a result of a survey by a contracted external research firm, it was found that pachinko parlor operators' overall evaluation of the Company's sales people is among the highest in the industry. However, the survey also identified issues, such as the need to strengthen their information provision capabilities. Therefore, we will work to enhance satisfaction of pachinko parlor operators in terms of information provision by utilizing tablets so

as to further increase sales capabilities. Moreover, in order to enhance pachinko players' expectations of the Group's products, we hold events for general players in Akihabara, Tokyo and elsewhere, where they can try the Group's new titles before their introduction.

In terms of product development, in addition to titles tied up with licensed content emphasizing entertainment, which are the current mainstream products, we will strengthen development of our original titles that do not use licensed content. In the past two years, the Group introduced titles that are reproductions of the Group's original titles from the past, such as *Fever Queen, Fever Powerful*, and *Great The King*. These titles were well received. As they are effective for capturing dormant players and offer high margins, we will cultivate demand for them and strive to increase the ratio of operating income to net sales. Furthermore, we will continue cost-reduction efforts through sharing and recycling of parts and materials.

4. Basic Approach to the Selection of Accounting Standards

The Group intends to prepare consolidated financial statements in conformity with the generally accepted accounting principles in Japan (Japanese GAAP) for the time being, taking into consideration comparability of consolidated financial statements over time and comparability among companies.

With regard to adoption of the International Financial Reporting Standards (IFRS), the Group intends to make an appropriate response, taking into consideration situations in Japan and abroad.

(6) Notes to the Consolidated Financial Statements Notes on premise of a going concern Not applicable

Important matters forming the basis of preparation of consolidated financial statements

1. Matters concerning application of the scope of consolidation

Number of consolidated subsidiaries: 5

Consolidated subsidiaries are: Sankyo Excel Co., Ltd., Bisty Co., Ltd., Sankyo Create Co., Ltd., International Card System Co., Ltd., and JB Co., Ltd.,

Disclosure of matters other than the above is omitted because there have been no significant changes from the recent securities report (submitted on June 29, 2015).

Change in methods of presentation

1. Accounting standards for business combinations

The Company adopted the provisions in Paragraph 39 of the "Accounting Standard for Consolidated Financial Statements" (ASBJ Statement No.22 issued on September 13, 2013), and changed the presentation of net income, etc. as well as the presentation of minority interests to non-controlling interests. To reflect these changes in the presentations, the consolidated financial statements for the previous fiscal year have been reclassified.

Additional information

1. Revisions to the amounts of deferred tax assets and deferred tax liabilities due to change in tax rates of income taxes, etc. The "Partial Revision of Income Tax Act, etc." and the "Partial Revision of Local Tax Act, etc." were enacted in the Diet on March 29, 2016. Accordingly, the effective statutory tax rate used for calculating deferred tax assets and deferred tax liabilities (those to be eliminated on or after April 1, 2016 only) was changed from 32.3%, which was used for the previous fiscal year, to 30.9% for the temporary differences that are expected to be eliminated in the period from April 1, 2016 to March 31, 2018 and to 30.6% for those that are expected to be eliminated on or after April 1, 2018.

As a result of this change, deferred tax assets under current assets and deferred tax assets under fixed assets decreased by ¥93 million and ¥239 million, respectively, and deferred income taxes recorded for fiscal 2016 and net unrealized gain on other securities increased by ¥426 million and ¥93 million, respectively.
