**\* Disclaimer regarding Forward-looking Statements**

The statements concerning future performance that are presented in this document are based on judgments using information available to the Company and which are deemed reasonable as of the release date of this material, and they are not intended to assure the achievement of such forecasts presented herein. Actual results may differ due to various factors. For information regarding performance forecasts, please refer to "1. Qualitative Information and Financial Statements (3) Forecast of Consolidated Results and Other Forecast Information" in the accompanying material.

## 1. Qualitative Information and Financial Statements

### (1) Operating Results

During the first three months of the fiscal year ending March 31, 2019 (from April 1, 2018 to June 30, 2018), the Japanese economy remained on a moderate recovery track against the backdrop of a recovery in corporate earnings and improvement of both the labor market and personal incomes.

Regarding the environment surrounding the pachinko and pachislot industry, the Regulations Partially Amending the Ordinance for Enforcement of the Act to Control Businesses That May Affect Public Morals and the Regulations Concerning the Certification and Official Inspection of Game Machines ("Amended Pachinko and Pachislot Machines Regulations") came into force on February 1, 2018. The pachinko and pachislot machines installed at pachinko parlors at present are compliant with the former regulations. These machines are allowed to remain in use for a maximum of three years as a transitional measure. In addition, for the time being it is permitted to continue sales of pachinko and pachislot machines certified as compliant with the former regulations. However, regarding pachinko and pachislot machines certified as compliant with the new regulations whose applications for format inspection are submitted after the enforcement of the Amended Pachinko and Pachislot Machines Regulations, it is difficult to forecast how players will react to them because the total payout of such machines is lower than that of machines compliant with the former regulations. Thus, pachinko parlors, the Group's customers, tended to postpone decision-making on the purchase of new pachinko and pachislot machines and replacement.

On the other hand, products that can be played at a more reasonable cost are expected to become the mainstream of machines compliant with the new regulations and there are certain elements that lead to new gaming performance, such as pachinko machines with payout settings. Therefore, pachinko and pachislot machines manufacturers are vigorously applying for format inspection and some products compliant with the new regulations have already been rolled out. Ahead of competitors, the Group decided to introduce *Fever Valvrave* the Liberator W, its first pachinko machine with payout settings, under the SANKYO brand in August 2018. During the first quarter of the current fiscal year, however, the Group did not introduce any machines compliant with the new regulations but introduced one new pachinko title and one pachislot title compliant with the former regulations (excluding reuse models). Meanwhile, *Fever Symphogear*, a pachinko title introduced in August 2017, became a long-running hit product, and additional sales of this title were brisk.

As a result, on a consolidated basis, net sales were ¥14.5 billion, a increase of 30.7% compared with the same period of the previous year, operating income was ¥1.3 billion, compared with operating loss of ¥2.3 billion for the same period of the previous year, recurring income was ¥1.8 billion, compared with recurring loss of ¥1.8 billion for the same period of the previous year, and Profit attributable to owners of parent amounted to ¥1.4 billion, compared with loss attributable to owners of parent amounting to ¥1.1 billion for the same period of the previous fiscal year.

Results of segments are presented below:

#### Pachinko Machines Business

Regarding the pachinko machines business, sales amounted to ¥12.7 billion, a increase of 126.8% compared with the same period of the previous year, and operating income amounted to ¥3.2 billion, compared with operating loss of ¥1.9 billion in the same period of the previous fiscal year. Sales of pachinko machines amounted to 33,000 units compared with 14,000 units in the same period of the previous fiscal year.

Although *Fever R-18* (introduced in April 2018) under the SANKYO brand was the only title the Group launched in the first quarter of the current fiscal year, *Fever Symphogear*, introduced in August 2017, remained popular and further additional sales of this title were made in the first quarter. Regarding reuse models, sales of *Fever Mobile Suit Zeta GUNDAM* (introduced in June 2018) were brisk.

#### Pachislot Machines Business

With regard to the pachislot machines business, the market remained lackluster and *Tanoshisa 30φ* (introduced in May 2018) under the SANKYO brand was the only title the Group launched in the first quarter of the current fiscal year. Sales amounted to ¥0.3 billion, a decrease of 91.4% compared with the same period of the previous year, and operating loss was ¥0.8 billion, compared with operating income of ¥0.8 billion in the same period of the previous fiscal year. Sales of pachislot machines amounted to 800 units, compared with 9,000 units in the same period of the previous fiscal year.

#### Ball Bearing Supply Systems Business

Sales of the ball bearing supply systems business were ¥1.3 billion, a decrease of 9.3% compared with the same period of the previous year, and operating income was ¥37.0 million, an decrease of 42.6%, despite parlor operators' low motivation for opening new parlors or capital investment.

#### Other Businesses

Sales of other businesses were ¥0.1 billion, a increase of 18.0% compared with the same period of the previous year, and operating loss was ¥92.0 million compared with an operating loss of ¥0.1 billion a year earlier.

## **(2) Financial Position**

Total assets at the end of the first three months of the fiscal year ending March 31, 2019 amounted to ¥381.7 billion, having decreased ¥14.5 billion compared with the figure at the previous fiscal year-end. This decrease was mainly attributable to a ¥9.2 billion decrease in notes and accounts receivable-trade and a ¥5.2 billion decrease in cash and deposits, despite a ¥0.9 billion increase in marketable securities.

Total liabilities amounted to ¥49.9 billion, having decreased ¥9.0 billion compared with the figure at the previous fiscal year-end. This decrease was mainly attributable to a ¥3.1 billion decrease in electronically recorded obligations-operating, a ¥3.0 billion decrease in notes and accounts payable-trade, and a ¥2.7 billion decrease in accounts payable (included in "Other" of Current liabilities).

Net assets decreased ¥5.4 billion compared with the figure at the previous fiscal year-end. This decrease was mainly attributable to cash dividends paid amounting to ¥6.0 billion and a ¥0.8 billion decrease in net unrealized gain on other securities, despite recording of profit attributable to owners of parent amounting to ¥1.4 billion. As a result, net assets amounted to ¥331.8 billion and the shareholders' equity ratio increased 1.8 percentage points to 86.6%.

## **(3) Forecast of Consolidated Results and Other Forecast Information**

No revision has been made to the forecasts of financial results for fiscal 2019 announced on May 10, 2018.
